

PUNTO

**Un incasso minimale dedito
all'estetica della luce.
Delicato, efficace, puntuale.**

**A minimal recessed fitting serving
the aesthetics of light.
Delicate, efficient and focused.**

Punto è un incasso che nasce da una riflessione rispetto all'impreziosimento della luce. L'apparecchio è funzionale, senza stilismi decorativi: la sua forma minimale si comporta come una cornice, che avvolge e delimita il fascio di luce generato al suo interno.

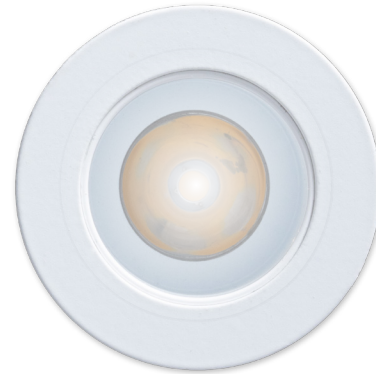

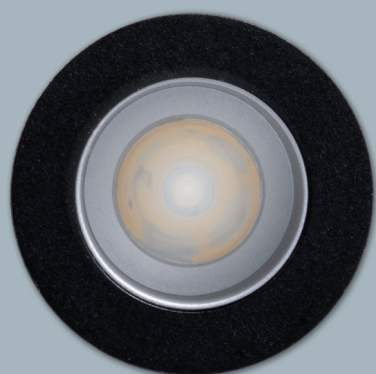

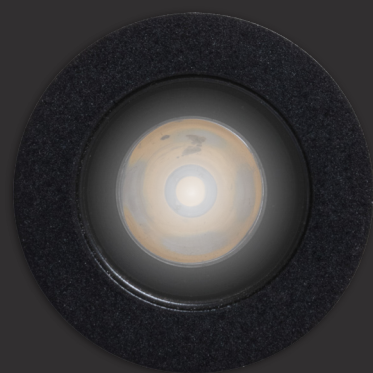

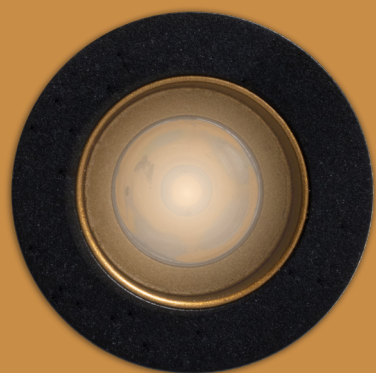

Nell'emissione luminosa si rivela la particolarità di *Punto*: la luce si abbellisce di una tonalità caratteristica, dettata dal riflettore interno scelto. Bianco, per inondare di chiarezza l'ambiente; nero, per illuminarlo in maniera più delicata; argento, per coprirlo con una luce intensa ma raffinata; infine oro, per conferire al bagliore emesso sottili accenti aurei. Ogni ambiente ha la sua luce.
Punto.

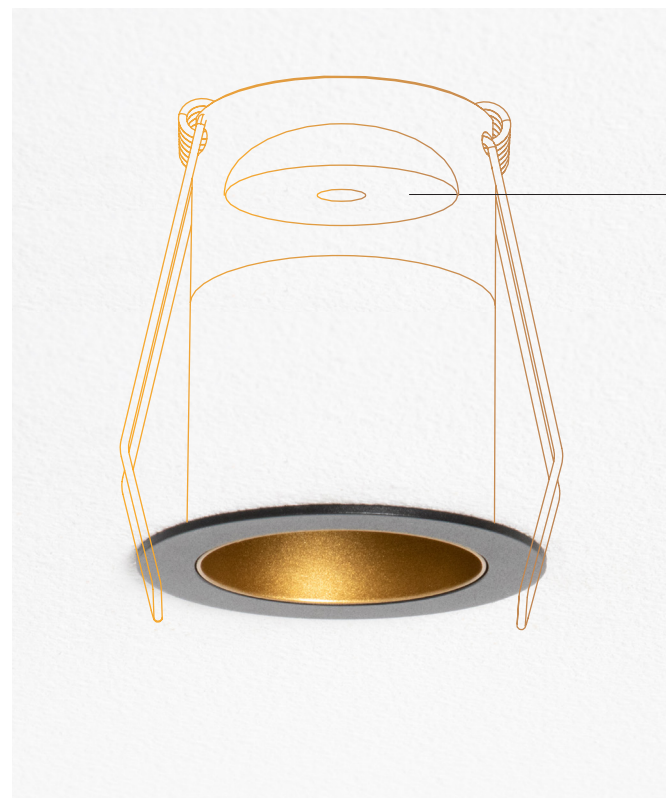

Punto is a recessed fitting which stems from a reasoning around the decoration of the light.

The fitting is functional without any particular decorative artifice: its minimal shape works as a frame which surrounds and encircles the light beam coming from the inside.

Punto peculiarity sits in its own light emission: the light dresses up a characteristic tone colour generated by the chosen internal reflector.

A white reflector, to flood the room with brightness; a black one, to get a more delicate effect; a silver one, for a more intense but elegant light; a gold one for a gleam with soft auric accents. Each room deserves its own light. That's it.

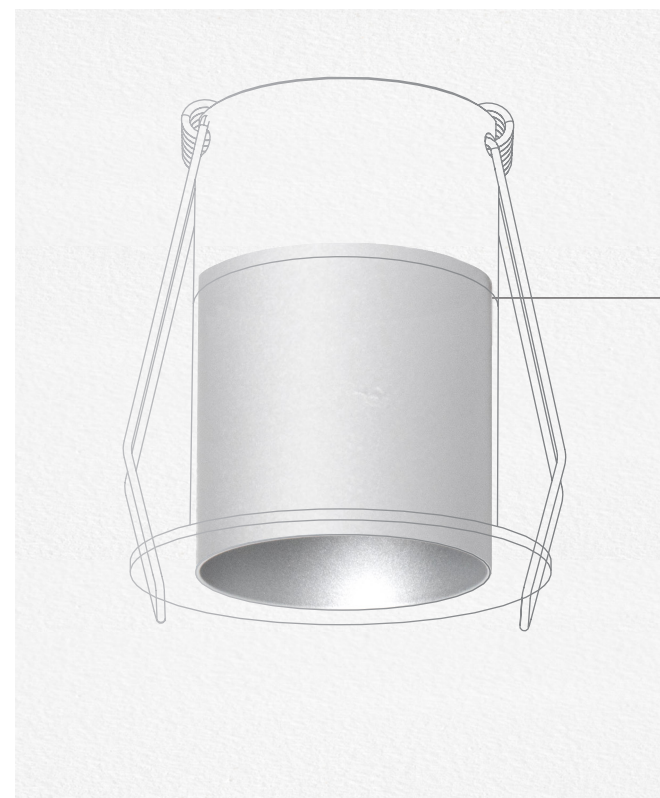

**Apparecchio per incasso
LED integrato con ottica
arretrata.**
LED recessed fitting with
deep-set lens.

**Cornice esterna con
spessore minimale.**
Ultra-thin external frame.

**Versioni con riflettore
bianco, nero, oro
e argento.**
White, black, gold and
silver reflector available.

**Corpo in pressofusione
d'alluminio.**
Die-cast aluminium body.

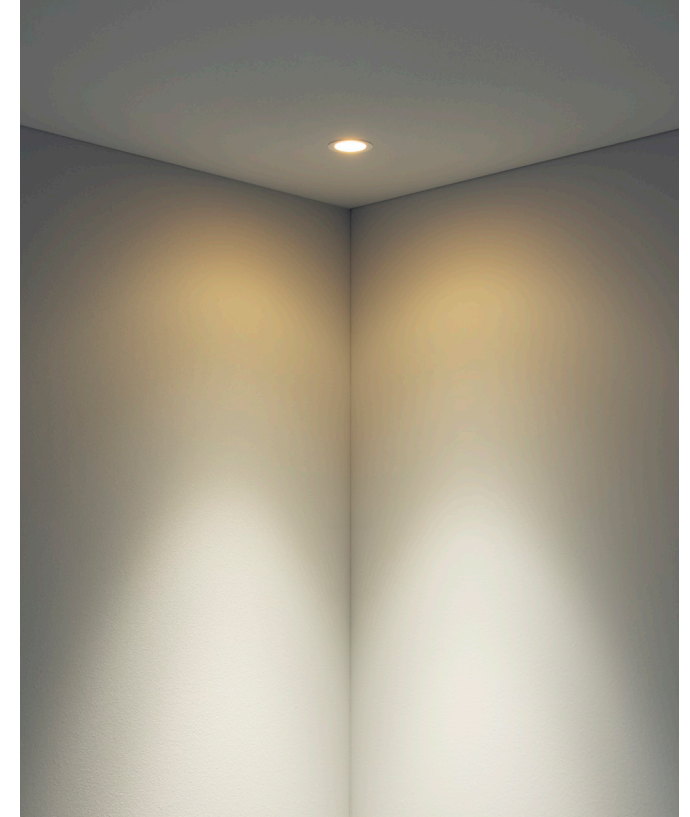

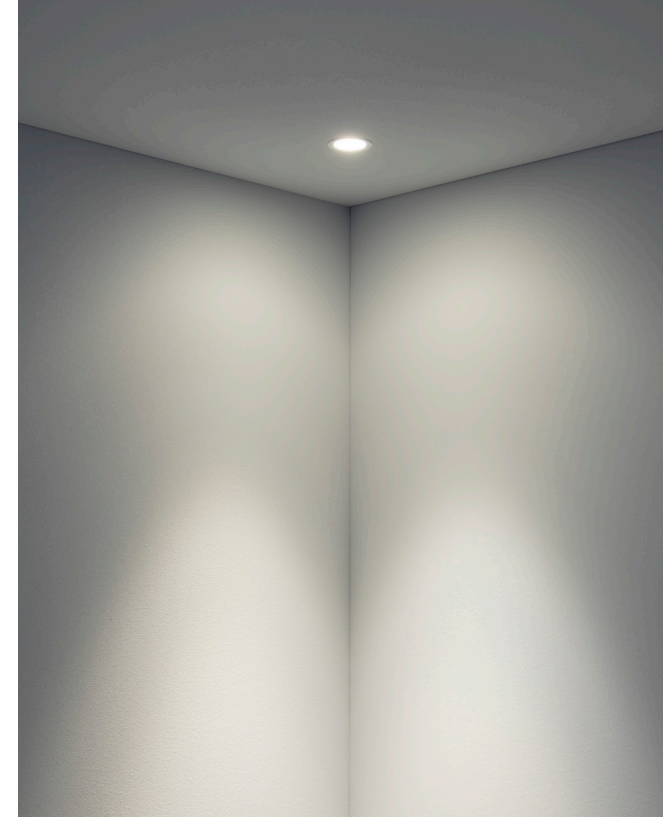

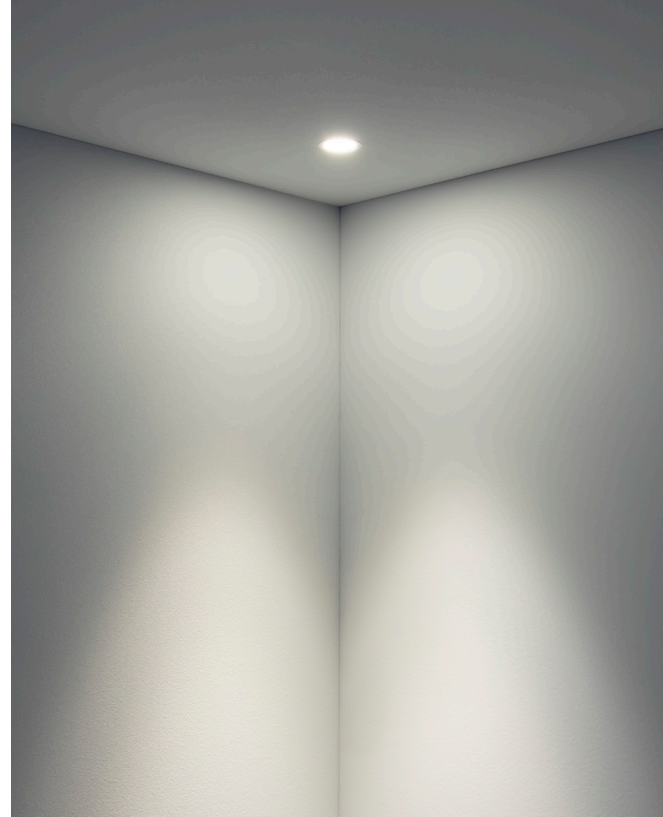

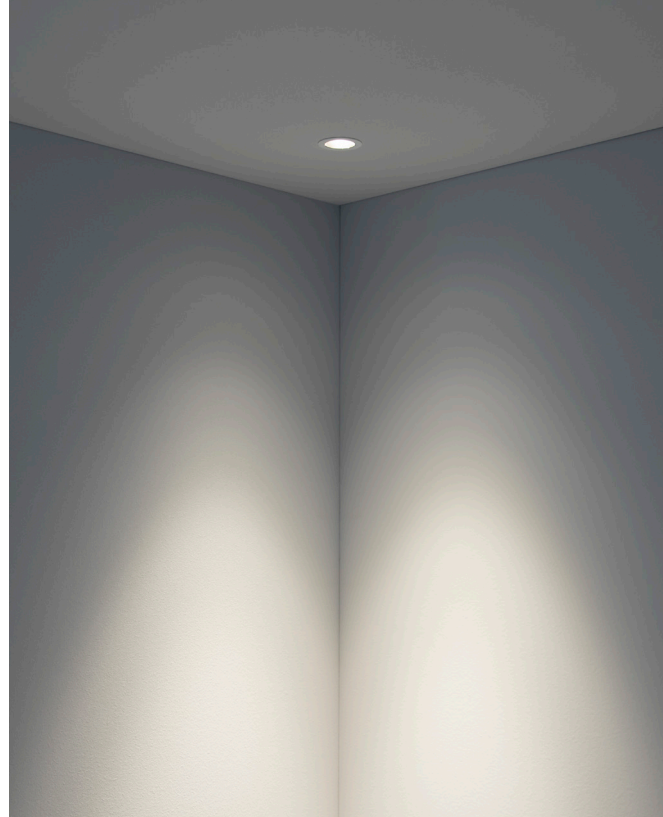

Combinazione colori

Color combination

Punto si caratterizza per la possibilità di scegliere la cromia del riflettore più adatto alle proprie esigenze. Al colore del corpo esterno (bianco o nero), si associa il componente interno che determinerà il tono della luce. I quattro riflettori non sono vendibili separatamente.

Punto distinguishes itself for the opportunity to select the finishing of the reflector according to the specific requirement. The internal component is matched to the colour of the body (white or black) and this combination will determine the final tone colour. The four reflectors cannot be sold separately.
